

## CSCU Pre-Academy Expectations

The City Soccer Club Utah Pre-Academy program provides a bridge between recreational and competitive soccer. The program is designed for players who would like to enhance their skills, learn new techniques, and improve current playing abilities within a professional training, age appropriate environment. The Pre-Academy program is operated by a combination of CSCU approved professional coaches and volunteer parents.

After registration, players will be placed within training groups based on their individual skills, commitment level, and mental perspective. Approved breaks and appropriate off seasons for rest and holidays are included in the CSCU schedule. We expect players to participate in Club sponsored camps and field player training sessions, as appropriate to their playing level.

Players are expected to exhibit good sportsmanship to ALL coaches, players, referees, and spectators. Players are expected to arrive at training, games and events on time and be ready to play. Participation for the entire seasonal year Fall, Winter and Spring soccer seasons are expected. Additional minimum expectations are listed below for play levels.

### Program Goals U5 thru U8

- Improve individual player technical ability, such as; dribbling, passing and receiving, attacking and defending 1v1, ball striking and finishing.
- Provide players the opportunity to learn and play multiple positions.
- Create a fun, healthy, learning environment.
- Provide the platform for players to fall in LOVE with the game.
- Introduce players to the USA soccer family.

### Parent Role U5 thru U8

- Parents have a big role in a player's progress. With your help we can make soccer a wonderful experience.
- Let your player learn and grow on their own. Focus on the playing and development process, not the result.
- Cheer for all players when they do well and refrain from making negative comments about any player.
- No coaching from the sidelines. It's the player's game, let them play it.
- Commit to UYSA ZERO tolerance for referee criticism and be a better example.
